SUMMARY

Third-year B.Sc. (Hons) Information Technology undergraduate specializing in Data Science at Sri Lanka Institute of Information Technology (SLIIT). Passionate about Artificial Intelligence, Machine Learning, Data Science, and Full-Stack Development. Experienced in developing AI-powered applications using Python, CrewAI, Google Gemini, React, Spring Boot, Flask, and MongoDB. Strong foundation in machine learning, computer vision, NLP, and multi-agent AI systems with hands-on experience through academic projects, hackathons, and leadership activities.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT) <i>B.Sc. (Hons) in Information Technology Specialization: Data Science</i>	2024 – Present Current GPA: 4.00
University of Moratuwa <i>Certificate in Agile Project Management</i>	Completed

PROFESSIONAL EXPERIENCE

AI Launch Pad Participant <i>Ascentic</i>	July 2026 – Present Sri Lanka
Participating in an AI startup incubation program focused on designing and developing AI-driven solutions with guidance from industry mentors.	
Sales Executive <i>Softlogic Life Insurance PLC</i>	Feb 2026 – May 2026 Sri Lanka
- Assisted clients in identifying suitable life insurance solutions based on their financial goals and protection needs. - Built and maintained customer relationships by providing professional consultation and ongoing support. - Prepared quotations, managed policy documentation, and supported policy application processes while ensuring accuracy and compliance. - Developed communication, negotiation, customer service, and problem-solving skills in a target-driven environment.	
Banking Operations Intern <i>Seylan Bank PLC</i>	2025 Sri Lanka
- Supported daily banking operations while ensuring accuracy and compliance with organizational procedures. - Assisted customers with banking services and documentation while maintaining confidentiality and professionalism. - Collaborated with branch staff to process transactions and administrative tasks efficiently.	

TECHNICAL PROJECTS

TalentCore AI <i>Enterprise AI Recruitment Platform</i>	2026 CrewAI, Gemini, Python, React
- Developed an AI-powered recruitment platform for automated technical candidate screening. - Designed a multi-agent interview workflow using CrewAI and Google Gemini for candidate evaluation. - Implemented CV analysis, adaptive interview generation, evaluation, and automated hiring reports. - Developed as part of the AMD Developer Hackathon on lablab.ai.	
UniGuide AI <i>AI Student Assistant</i>	2026 React Native, Node.js, Gemini, MongoDB
- Developed an AI-powered university assistant using Retrieval-Augmented Generation (RAG). - Integrated Google Gemini with vector search to provide accurate student support responses. - Implemented document retrieval, semantic search, and conversational AI capabilities.	

Cardiovascular Disease Prediction System

2026

Machine Learning Prediction System

Python, Flask, React, Spring Boot

- Developed a machine learning system to predict cardiovascular disease risk using clinical data.
- Performed preprocessing, feature engineering, outlier handling, and feature selection on a dataset containing over 70,000 records.
- Evaluated Random Forest, XGBoost, KNN, and LightGBM models, selecting LightGBM as the final model.
- Integrated the trained model into a full-stack application using React, Spring Boot, and Flask API.

ACHIEVEMENTS

Dean's List Award – Sri Lanka Institute of Information Technology (SLIIT)

Year 2 Semester 2, Year 2 Semester 1, Year 1 Semester 2, Year 1 Semester 1

CodeJam: Project Chronos Finalist – Selected to compete in the final round of a story-driven software engineering hackathon focused on coding, debugging, teamwork, and problem-solving under pressure.

Builder (Bronze) Badge – lablab.ai – Earned for publishing the TalentCore AI project during the AMD Developer Hackathon – Act II.

CERTIFICATIONS

Computer Programming for Everyone – University of Leeds & Institute of Coding

Excel Essential Training – LinkedIn Learning

Digital Skills: Social Media – Accenture

Digital Skills: Embracing Digital Technology – King's College London

Digital Skills: Mobile – Accenture

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL, C

Frontend Development: React.js, React Native, HTML, CSS

Backend Development: Spring Boot, Flask, Node.js, Express.js

Machine Learning: Scikit-learn, LightGBM, XGBoost, Random Forest, KNN, CNN, TensorFlow, Keras

Artificial Intelligence: CrewAI, Google Gemini API, Retrieval-Augmented Generation (RAG), FAISS, ChromaDB

Databases: MongoDB Atlas, MySQL, Microsoft SQL Server

Tools & Platforms: Git, GitHub, Docker, Jupyter Notebook, VS Code, IntelliJ IDEA, Figma, Roboflow, CVAT

VOLUNTEERING EXPERIENCE

Data Science Subcommittee Member

2026

Mozilla Campus Club, SLIIT

Sri Lanka

- Contributed to data science initiatives, workshops, and collaborative activities while promoting technical learning within the student community.

Web Development Team Member

2026

Odyssey, IEEE IAS Student Branch Chapter of SLIIT

Sri Lanka

- Contributed to the development and maintenance of web-based components supporting the Odyssey event and collaborated with the technical team.

Team Leader – Customer Experience Team

2026

OGTa, AIESEC in SLIIT

Sri Lanka

- Led team activities focused on customer engagement, coordination, and improving participant experiences through effective communication and teamwork.

Organizing Committee Vice President – Partnership Development

2025

Project Kindle, AIESEC in SLIIT

Sri Lanka

- Managed partnership development activities and coordinated with external organizations to support project goals and initiatives.

Organizing Committee Vice President – Delegates

2025

Legacy'25, AIESEC in SLIIT

Sri Lanka

- Coordinated delegate communication, registration processes, and participant engagement activities to enhance event experience.
